Route Description v3.46 Errata

1. The Grid Reference at the end of 7.3 should be NZ 705 033

   Pass through LWG and X FLD (CB 165) to pass through SWG opposite. Continue AH (still on CB 165 – towards L of last tree of upward trend) to reach and pass through LWG (at Botton Hall Reservoir Water Tank) (NZ 700 037). In 50m BL uphill (CB 130) and follow TK (possibly boggy) upwards for 600m (does bend back and forth) to reach RD (NZ 705 033).

2. The Grid Reference at the end of 7.7 should be NZ 729 028

   TL (SHARP) and then immediately TR (SHARP) on narrow FP (CB 110). Continue to ascend – as you reach the top the FP becomes a TK. AH towards LWG with 2 x SWG alongside at SP (Glaisdale 3½ miles). Pass through and TL to join RD – you are now on the C2C! (NZ 729 028).
