THE DORSET 100 2016

OVERVIEW

We were delighted that Dorset was able to host its first LDWA 100 mile challenge event in 2016. It gave us the opportunity to take walkers into some of the parts seldom explored by visitors who just head for the coast and the more well-known beauty spots around the county.

The topography of Dorset varies considerably from coast, heathland, historic ridgeways and Iron Age forts to vales and rich farmland. We tried to give walkers a taste of all of these as well as some of our hamlets, thatched cottages and manor houses. We hope you and your families and any supporters enjoyed the Points of Interest sections on our website and the video of the route.

Much of rolling rural Dorset does not have much mobile phone reception. So we could not provide the type of reporting that is possible in some other areas of the country. Often we had to wait for a checkpoint (CP) to close before the data on participants could be sent or brought to HQ. But the combination of our Saxon spreadsheet based recording system plus the LDWA's centrally developed EMS ensured we eventually got what we, and we hope you, needed.

This report offers thoughts as well as thanks from our Team Leaders to everyone who was involved in making this such a lovely event. Photographs are by Rob Jayne and John Allen unless otherwise credited.

HOW IT WENT ON THE DAY

We found it valuable to set an overall aim of trying to help as many as possible finish what would be a challenging event - weather permitting! That led us firstly to try and find an interesting and stimulating route and to make our route description as accurate and clear as we possibly could. Many people, locals and visitors, walked sections of the route and offered helpful comments.

Our aim led us to get all our checkpoints under cover and to try and ensure there was sufficient nutritious and varied food at all checkpoints. We are indebted to the LDWA Groups and their fantastic teams of volunteers who came from all over the country to look after everyone so brilliantly at the checkpoints.

We tried to learn from our predecessors on how to schedule enough transport, use vehicles flexibly where appropriate but with a clear set of timetables, and on the importance of having a large HQ with plenty of showers, sleeping accommodation and areas where people could sit and relax over a cuppa.

On the day, it all went well. The weather was kind, with only a short burst of rain on the Saturday evening, and conditions were mostly good underfoot.

You can see the results at the end of this report. We had 491 starters, of whom 348 finished: a finishing rate of 71%. The fastest finisher was Ludovic Maillard in a time of 21 hours and 28 minutes, but congratulations go to everyone who finished whatever their time. Special congratulations to Brian Layton who went round the route twice in

a time of 94 hours and 48 minutes.

We hope you enjoyed our pre-event video show and the update shown in the hall during the event. The final video can be accessed from the 2016 Hundred website. Do enjoy reliving the event and seeing those bits you may have passed in the night.

If in any area we failed to live up to your expectations, then we are sorry. But the feedback suggests you enjoyed all that we and Dorset were able to offer. All who have put in so much effort over so many years really appreciate that.

ENTRIES & ADMINISTRATION by Julie Bardswell

Organising a major event such as the LDWA 100 starts years ahead. So, even before the start of 2015, work was underway on the rules, setting up the web-based entry system on SI entries, designing a paper form, and downloading qualifier results. The real task kicked in when the entries opened and I waited up anxiously on the evening of 12th October to ensure all was well and we were up and running at midnight. I watched in excitement as the entries rolled in until nearly 1am! We had 181 entries in the first 24 hours, but after a week the flow reduced to a trickle. Even so with a week to go before entries closed the ballot was looming, but in the end we just escaped crossing the ballot threshold.

Checking the entries for LDWA membership and qualifier was a tedious but necessary task. Almost everyone was factually truthful on their entry, but I had to spend happy hours reading through the fine detail of Ultra events trying to decide whether they were acceptable as qualifiers. Google translate came to the rescue for the foreign qualifying events!

We had a trial run of the EMS recording system on the Marshals' Event, having seen it only three weeks before, and it would be a distortion of the truth to say that the recording all went smoothly. However it was an invaluable learning experience for us before the main event.

Another valuable lesson learnt on the Marshals' was that we needed a much quieter area for Registration. Hence we moved it to the Sports Hall at the back of the school for the 10.00am start. We also benefited from having three start times which reduced the flow of entrants for the 10.00am start and helped even out the arrivals at the early checkpoints.

In the weeks leading up to the event it was impossible to believe that after four years of planning 500+ people were going to turn up for our event. However, in the final week the entrants woke up and a surge of emails and phone calls made the whole thing come alive.

I was pleased that registration on the day went very smoothly with only a couple of issues and we waved goodbye to 491 starters of which 348 finished the event.

It has been a very challenging role but one I have truly enjoyed. Thank you to all who have helped.

THE ROUTE by Martin Callow

The Dorset 100 route team consisted of Martin Callow, Stephen Mayne, Chris Pitt and Robert Powell. The work of the route team covered four main areas:-

Devising the route and writing the route description: In the early stages of the project a number of different routes were considered including one that was significantly further east than the final version. Early on, we decided not to include any sections on the coast path, likely to be busy over a bank holiday weekend, while we included many of the big hills in West Dorset. Later on, once the broad outline of the route was clear, there were further changes to fit the mileage required and sadly we had to exclude going past some notable historic houses (such as Mapperton) but we included many lovely villages such as Milton Abbas.

In writing the route description, each member of the route team chose a 25-mile section, and these were checked by independent checkers and edited by one of us to standardise on style. The route itself was checked regularly and various problems resolved with Dorset County Council and landowners. We negotiated five short sections over private land which only appeared in the version released to entrants. As well as a “recce” version, a separate route description had to be written for the Marshals’ Event as there were some significant differences from the main event.

Route signage: The team inherited the road signs used in the last few 100s supplemented by signs loaned by the organisers of the Purbeck Plod event. Off-road signage included strips of reflecting tape on stiles etc, directional arrows, glow sticks, and “flags” (electric fence posts with reflecting tape on top). The team worked hard before, during, and after the event to install and take down all this signage (and the self-clips).

Route marshals: Marshals were recruited for a number of locations including a difficult road crossing on the A354 before Dewlish, and Lewesdon Hill and Eggardon Hill, which were also manned clipper points. We were fortunate to have the expertise of the Duddon and Furness Mountain Rescue Team from Cumbria on Lewesdon Hill (not a mountain but the highest hill in Dorset!).

Routesiders: This was our name for the various farms, businesses and individual households on the route that needed to be notified about the event. A flyer was printed for distribution which had the basic details of the event, an outline map of the route, and a positive message about the benefits to the local economy. Parish councils were also notified and articles published in a number of parish magazines.

OUR HQ AT WEY VALLEY SCHOOL by Anne and Sandra Brown

The Wey Valley School proved a very successful event HQ. Dorset Group has used this venue on previous events, knew the layout and had good relations with staff there. The school’s facilities manager dropped in from time to time during the event and could not have been more helpful. For example, he made extra loos available at the start, provided additional and larger waste and recycling bins throughout the school and unblocked a drain at 7.00am! Plentiful space for key activities and services – registration, toilets and hot showers, sleeping, relaxing ... and the enjoyment of never-failing supplies of tea, coffee and excellent food – was much appreciated by both participants and marshals.

We could not put on such an event without the kind and selfless help of wonderful marshals. Throughout the event, cheerful and caring HQ Team helpers were there, answering queries, meeting and greeting finishers and retirees with smiles, warm drinks and refreshing Purbeck ice creams, quietly ensuring that showers and loos were nice to use, emptying bins, brushing floors, checking car parks, dealing with lost property. It was delightful that so many of them really enjoyed their shifts and thanked us for inviting them to take part!

To all helpers at HQ - Dorset LDWA Group, London LDWA Group, other LDWA members and friends (some of whom we hope will now join the LDWA) a huge and heartfelt thank you! It was an enormous privilege to work with such a dedicated group of delightful people.

THE CHECKPOINTS by Mike Childs

Checkpoints are as much part of a successful 100 as the route. The quality of support and facilities at them will long stay in the memory of participants.

In 2013, once our bid to host the 100 in 2016 had been accepted, we therefore started planning a provisional route and identifying potential (and available) checkpoints. These tasks must be integrated and developed simultaneously. The checkpoint team consisted of Deirdre Flegg, Bill Peach and Mike Childs. We started from a simple principle that (unless unavoidable) checkpoints should be indoors, with proper facilities for walkers. Particularly on the second half of a 100, it is not desirable for the checkpoint marshals to have to operate outdoors for long periods. Equally, while it is possible to change a provisional route to visit a potential checkpoint, it is not possible to bring a good indoor checkpoint onto an otherwise desirable route.

Planning the intervals of checkpoints (and booking them) is a task that requires research, a long lead-in time and liaison with many people. The route planning team were always co-operative, understood the issues and contributed to this process. We had a lot of help and enthusiasm from village hall secretaries, and kind co-operation from owners of other buildings and facilities. In the lead up to the event, visits were made to check access, facilities for food preparation, equipment, floor area, and to carry out a risk assessment.

So, on the day, the Dorset 100 had a succession of checkpoints in buildings that were both interesting and charming. They included some "listed" buildings (historical and architectural interest), pleasant workmanlike halls (often converted from war time buildings), a fine traditional corrugated iron building, modern village halls built or improved with millennium lottery grants, and a charming WW1 memorial hall in a tiny beautiful village. The only "outdoor" checkpoint (necessary to avoid having an 11 mile section at night) was under cover in a spacious barn with water and lighting. The last stop (the privately owned St Bartholomew's Chapel at Corton Farm) was a beautiful building in a lovely location. We were very grateful for the sympathetic co-operation and support of the landowner.

Once we had settled the basic framework of HQ, route and stops, other local groups and individuals were contacted to staff the checkpoints. They brought experience, enthusiasm and pleasant personal touches and were always a pleasure to work with. It is this personal support from so many volunteers that brings a unique quality to a LDWA 100, and so well reflects the ethos of the organisation. The event simply

would not happen without this unstinted and generous contribution. Every checkpoint was excellent.

CATERING by Deirdre Flegg

Over 200 loaves of bread, 700 pints of milk, 68 kg cheese, 26 kg fruit jellies (5 per entrant-did you get your share?) ... the scale of catering for entrants and marshals over 48 hours is huge-to say nothing of the consumables such as paper plates, cups, toilet rolls, cleaning materials, and so on.

My aim for both the marshals and the main event was to provide sufficiency and variety at every checkpoint, plus a good range of food to support HQ marshals throughout their long stints. We were grateful for sponsorship from Clipper Teas, based in Beaminster (5,000 tea bags), Dorset Flapjacks (500 bars) and Purbeck Ice-cream (500 little pots). All of our cakes (with the exception of malt loaves) were home baked by Dorset members and their families, Cornwall and Devon members, and a local village baker: this enabled us to offer exceptional quality to supplement the usual sweet menu of biscuits, fruit pies and the like. The ready availability now of 'Free From' enabled us to help those who have particular dietary needs and this was appreciated.

The biggest single task in catering is getting everything, including equipment, to HQ, and then sorted and boxed. We were helped by a small army of people, who stored goods in advance, came to mine and packed bags, loaded their cars and vans until they groaned, then rolled their sleeves up on the Friday and Saturday. Otherwise we would not have been ready for the food vans or the checkpoint teams who wanted to collect. Feedback as the event progressed was positive, and there were none of the dire supply or re-supply problems which had kept me wakeful in the small hours. I did forget the milk for checkpoints 2 and 3, but rapid footwork from two wonderful drivers sorted this out.

The finish meal was shepherd's pie (made with quality minced beef from a local farm) or vegetable and bean casserole, followed by apple crumble. The facilities at our HQ were excellent for large scale preparation, and our teams were enthusiastic, hard-working and innovative. We were glad to accept an offer from Heart of England members to cover the 'graveyard shift' from midnight on Saturday, and their cheeriness, professionalism and new energy was most welcome. I had planned to move to cooked breakfasts from about 4.00 a.m. on Monday, having observed that many prefer this if they have slept before their finish meal. This proved to be mostly accurate, but it was baffling how few of the finish meals we served before then. We set out a plan for recycling, including separating food waste, and mostly this worked. Our dedicated recycler collected and re-sorted where necessary and he had some very happy chickens!

It is a difficult balance on major events to get the quantities right without over or under supply. We offered some of our spare baked goods for sale/donation, with the proceeds to charity (just over £57-thank you); we had the usual 'free shop'; we gave perishables to a local shelter for homeless people, and other goods to a local hospice.

Thank you to all the checkpoint teams who responded to the diverse menus and grappled with the vagaries of the different kitchens, to produce tempting displays.

IT/COMMUNICATIONS by Chris Pitt

In Dorset we have been using barcoding and scanning for the past four years and as part of a communications strategy for The Dorset 100 we saw an opportunity to explore some of the recording and tracking technologies available.

On the 2014 Dorset Doddle we tested NFC stickers (tags) on the back of 10 tallies which, although they worked well, added cost with little or no benefits. We also had some interesting discussions with Open Tracking – the provider of the GPS based event management system for the winter Pennine Way Spine Race. Although we couldn't get this within budget for the Dorset 100 it may be an option for future 100s in more remote locations since it enables every participant to be tracked and hence found if something happens.

Our checkpoints gave us a real headache with only one hall having rather iffy WiFi, 5 halls having no mobile signal at all and several with an unreliable signal. We opted for live feeds only from Beaminster baggage stop and the start/finish. We used Saxon (our spreadsheet system) to scan and record the results locally and our closing team then sent these back to HQ where they were exported to EMS.

Special thanks go to:

- All the checkpoint recording teams who were given a 3rd electronic recording system in 3 years.
- Phil Bardswell who wrote the Macro to export from Saxon to EMS
- Annette and the Cornwall & Devon Group who dangled dongles on both the marshals and main event to provide regular updates from Loders
- The HQ scanning, recording, printing, uploading and logging teams.
- And finally Adrian and his operators from RAYNET. A truly professional service, who wired up everything that moved and/or was static and were flexible in redeploying when needed. Having RAYNET people in every minibus was a real asset and allowed us to redirect the vehicles when needed. Two RAYNET people also walked a total of 80 miles with the sweepers, and were able to let approaching checkpoints know of their arrival times and if anything was amiss. They were indispensable.

TRANSPORT by Ian Brown

The main tasks for the transport plan remain the same for every event: deliver breakfast baggage out and back; deliver food, drink, equipment to open checkpoints; close checkpoints and return surplus back to HQ; pick up retirees and return them to HQ.

We decided to minimise waiting time for a retiree, targeting 2 hours maximum and scheduling pick-ups so that checkpoints and retirees would have a clear timetable for returning to HQ.

Breakfast baggage was the easiest part to fulfil as I handed over the keys of a Ford Transit van to the team led by Ian Sykes. They then got on with the job they have performed so efficiently for many years.

Delivery of goods to open checkpoints and later closing them down was helped by some checkpoints picking up direct. A rota of 3 teams with a total of 7 volunteers

drove our main van on 8-hour shifts during the event. We had a back-up van which was deployed collecting waste and recycling.

Defining the retiree schedule was time consuming, targeting checkpoints 4 to 12, with others on demand. We planned for 'worst-case' scenarios - weather affecting driving conditions and unexpected and early retirees (someone could twist an ankle even before CP1). Partly because Dorset is a small group, we decided to use a local travel company, whom we know from our other events, to look after the peak hours, together with 2 minibuses with 2-man Dorset volunteer crews who knew how to navigate the narrow Dorset lanes.

Dorset generally has poor mobile phone reception, so RAYNET offered to provide mobile reception in our main 3 minibuses and this proved invaluable as we could redirect them to other locations when necessary, whilst also knowing where they were at all times.

Reflections of the Marshals' Walk led to us adding a fourth minibus close to the event which proved beneficial for ferrying people to and from the Park and Ride facility. This meant there was usually at least 1 minibus waiting, hopefully reducing stress on entrants wondering if they would get to registration on time! There were a total of 9 volunteer drivers in addition to the 3 professionals, working on 8-hour shifts over the whole event period.

The Transport team also picked up many of the warning signs used around the route.

Overall the transport plan worked well and met its aims, although there were a few unplanned (but probably not unexpected) hiccups along the way. It got entrants from the Park and Ride at the beginning, back at the end (with the last shuttle run being provided at 14.00 on the Monday), and basically got stuff to where it needed to be and collected bodies when they got beyond their limit! A huge THANK YOU to all who were involved.

MARSHALS' EVENT by Deirdre Flegg

The marshals' walk is an event in its own right. It has similar logistics, if for a much smaller number, and in some ways is harder as entrants may well be alone for long stretches. We therefore planned to give walkers as much comfort and support as they might have on the main event. All of our checkpoints bar one were inside, and we booked the same halls, except for HQ, and substituted the lovely St John's Church at Tolpuddle, for Briantspuddle Village Hall. We also omitted Dewlish, in favour of a full food and drinks service in the historic Reading Room at Milton Abbas.

We were grateful for the quick response to our requests for marshals at our checkpoints and welcomed teams from across the country, including the experienced South Manchester Group who ran breakfast and whose leader, Quentin, kept me chuckling when I needed it! Three teams did an early and then a late checkpoint, which can work well if geography permits an easy drive between them and the teams can get some sleep before some of the longest shifts.

48 entered, and on the day 43 started in warm and dry weather, with a reasonable forecast for Saturday, some overnight frost likely, and strengthening winds on Sunday. 28 finished, the first to arrive back being David Findel-Hawkins, completing

his 20th 100. Our other Award recipient was Dorset's Martin Callow, completing his 10th 100.

We had 2 starts, the second at 12 noon, and had warned that the checkpoint marshals would hold back anyone arriving early at the checkpoints. This did prove to be necessary for a short period, but was taken in good humour. The pace was fast for most of Saturday, and checkpoints were closing much earlier than expected, leading to some adjustment of transport etc.

In the first night, walkers encountered an unexpected issue with an electric fence which blew some off their feet but fortunately did not injure anyone. The route team were able to sort this out before the main event, but not without some comments on the forum about the 'electrifying' nature of the Dorset 100! We also had deteriorating weather in the later stages of the event. Those who went through the second night encountered one of Dorset's thick coastal mists, which was so dense that it was barely possible to see the person in front. Route finding became very tricky, even for those who know the area; it was very cold, and progress was slow for most.

The Marshals' Event serves a number of purposes, and an important one is to anticipate issues which may arise on the main event, either safety related, route related or issues with checkpoints and catering. The electric fence, the need for Plan B in the event of similar serious weather in the final stages, the need for a quieter area for registration and communications and useful feedback from checkpoint marshals were fed back into planning for the main event.

Finally, the icing on the cake was to welcome home our own Teresa, who completed in her home county on her fourth attempt at a 100. Hurray from all!

OUR THANKS

We could not possibly have put on this event without the help, experience and guidance of so many people from across the LDWA family. The Dorset Group is relatively small and so we are especially grateful for the help we received. We cannot hope to thank everyone, but the following deserve an especial mention and a section later in this report lists those from the Dorset and other LDWA groups who gave their time and commitment to help us. Apologies in advance if we have failed to mention someone.

In addition we would like to thank on your behalf the following:

Lewesdon Hill: Duddon and Furness Mountain Rescue Team

RAYNET led by Adrian Lambert

MediWest led by Richard Millin

Homeward Bound Travel

Dorset County Council: Chris Hook for use of the Park and Ride car park

The Baggage Team: Edith Sykes, Ruth Griffiths, Terry Griffiths, John Wood, Ian Sykes deserve an especial thanks as they have been doing this invaluable job in a highly professional way for more years than they care to remember. But I was pleased to be able to offer a small hamper of Dorset goodies (plus a bottle of malt whisky!) to Edith Sykes on your behalf.

We hope you enjoyed the fare offered by our sponsors and will buy from them in the future:

- Clipper Teas based at Beaminster <https://www.clipper-teas.com/>
- Dorset Flapjacks www.dorsetflapjacks.com/
- Purbeck Ice Cream www.purbeckicecream.co.uk/

Thanks also to:

- Unison for providing mugs (some of which have now gone forward to N Yorks)
- Matt and Clare Tarling who provided the music backing to our video and entertained us on Saturday evening with their fiddle playing at Long Bredy. <http://www.matt-tarling.co.uk/>
- the Oak Pub at Dewlish which stayed open to provide food and drink to the supporters <http://www.oakpub.co.uk/>
- our physio Joe Parkes who did a wonderful restorative work on so many at the finish. http://www.handsonsportstherapycourse.co.uk/#!form_map/c24vq

We were delighted that Roger Cole was able to send our 10.00am starters on their way. His words were heard thanks to the quietening effect of the Wareham Town Crier Jacquie Hall. Roger then walked part of the route. We thank him for the inspiration he has provided to so many LDWA walkers over the years and for joining us here in Dorset.

THE DORSET TEAM

Planning and implementing a 100 mile challenge event is a daunting task. But our group saw the event not only as a challenge but also as a project that bound us all closer together. It was wonderful how our members offered to help in a myriad of ways and recruited their families and friends. We could not have done the job without the Group's enthusiasm and hard work and we hope the group is even stronger as a result. What new challenge can we now take on in our "spare time"!?

The majority of the planning and implementation fell on the shoulders of the main organising team and the team leaders in particular. So an especial big thank you to the following:

Project Coordinator:	Richard Brown
Entries, registration, treasurer:	Julie Bardswell
HQ:	Anne Brown, Sandra Brown
HQ Catering:	Deirdre Flegg, Jane Hopcraft, Debbie Murphy, Sue Widdowson
Route Planning and description:	Martin Callow, Robert Powell, Chris Pitt, Stephen Mayne

We also warmly thank the staff and especially the facilities manager Paul Harding at our HQ, the Wey Valley School. Having such a can-do enthusiastic and knowledgeable partner on site was reassuring and he could not have been more helpful.

THANKS TO YOU...

Finally, we thank you, the participants and where appropriate your families and supporters for helping to make our Dorset 100 so enjoyable. We hope you took back happy memories and will want to return to our glorious county to further explore an area with so much to offer. We look forward to welcoming you back on one of our events or just for a relaxing family holiday.

Thank you again to everyone involved in so many ways.

The Marshals' Event

And congratulations as well to the 83 participants who finished their first 100 in Dorset.

Some comments from participants and marshals

“Ice-cream at the finish, what a brilliant idea, likewise the cheesy chips at Portesham, perfect for the last push for base.”

Cornwall and Devon's washing line at Loders; "Oh look, Widow Twankie's laundry service!".

“Thank you and your superb team for putting on a great event. Everything was so well organised even down to the colour of gloves for the loos!” (a member of the cleaning team)

“Every check point was such a 'treasure' with its own 'speciality! Crumpets in some, pizzas in others, hay stacks to sit on in one; it was brilliant and you even managed to pick me up in a bus at 4am outside a pub in the middle of nowhere so I didn't have to use my recently acquired 60+ bus pass! “

“I had a very enjoyable 'cake-eating tour' of the Dorset Countryside (with a few hills thrown in to help burn the calories - thanks for that!) and am very grateful to everyone whose hard work made it happen.”

“Highlights for me were meeting you all, the Fox, asking someone for full waterproofs and then testing their water resistance by pouring water on them (he was very impressed) and people insisting on showing me kit we had not even asked for 'I bought this survival bag and I am going to show it to you' and 'this is my second torch' etc.” (a kit checker)

“Walkers on a 100 are a pretty miserable lot. The task is so intense that the smallest things that go wrong seem like catastrophes and all one's navigational errors are down to the organisers. But this time I heard nothing but praise and appreciation. The food was all good and varied and plentiful. Some of those cakes early on were magnificent. They probably were later on but I had lost a few powers of discernment by then. ...”

OK, there is no good pretending that I don't have a serious complaint. It relates to the expense. I mean the future costs. I was privileged to see wonderful parts of Dorset that I have never seen before and now, having told my wife about them, I am just going to have to come back and probably stay somewhere a bit expensive and comfortable to see it all again at leisure.”

“I will long cherish the memories of ever-changing scenery, chocolate-box villages with thatched cottages, clear bubbling streams, far-reaching views, verdant pastures, secretive woodlands, wild garlic, birdsong, butterflies and near-perfect weather. Oh, and not forgetting a few hills along the way to help keep us alert. Once again, the company and camaraderie of so many fellow Hundredeers made the journey even more pleasurable.

My hallucinations were varied this year – they included a white unicorn after Pilsdon Pen, scarecrows in Loders and the night-time mating call of frogs or toads just after Lower Sturhill Farm. I fear that at least one of these might have been true!”
