Many of the lost property items have now been claimed. The list below is what I still have and I have expanded the description of some of the items (highlighted in yellow). I have also extended the time for collection till the end of June.

### Footwear

- Salomon X-Ultra **boots** UK size 10, dark colour with blue markings. Goretex, with Ortholite insoles. In good condition, just a bit muddy! (left outside gym at finish).

### Glasses

- Black plastic frame metal arm (one lens has come loose from the frame).
- Black plastic frame prescription glasses (for man) in blue hard Specsavers case.
- Black plastic frame (prescription) sunglasses. The reference on the gasses is Oscar Black 51 and the lenses seem to have some prescription correction. The case is semi soft from Armani in grey plastic with a zip and contains a Glasses Direct cloth.

### Walking poles and seat

- LEKI Makalu red and black (with piece of blue tape).
- Folding **seat** with HSBC logo on red seat. I understand this was the property of a supporter. It was found in the churchyard at Wittersham, very close to CP3, where some supporters had taken up residence.

**Cups and Water bottles.** We have a miscellaneous collection here. If anyone wants a favourite cup/bottle that they think they lost and want it returned please get in touch (see details below).
