

**LDWA KENT GROUP**  
**HEART OF THE WEALD**  
**RESULTS**  
**14 July 2013**

What a scorcher – 142 started out and enjoyed (and endured) a day in the sun, walking various distances, over what I believe most people will have found is some really pleasant scenery. It certainly makes it worthwhile for the organiser when the feedback is so positive. However, one minor blemish on the day is that some of the 20 and 26 mile entrants incurred the wrath of a farmer where some sheep had moved into an adjacent field – it appears that someone (presumably one of us) had left a gate open ..... (some entrants were ‘forced’ to assist in rounding the wayward sheep up).

We believe that all walkers and runners are now accounted for(!), though the distances shown against names may not quite match reality; to a large extent, completion times on such a hot day are a bit irrelevant, but are shown here for your records. It seems invidious not to name those who retired at a later stage whilst showing the shorter completions, so I have taken the liberty to show all here, with a special moniker (AA) to acknowledge two Administering Angels (who waited with one of the retirees). Many apologies to anyone where the time and / or distance are inaccurate – blame it on me for having so many variables.

Of course, no event could ever possibly take place without the splendid assistance of the marshals giving of their time, this year comprising Keith & Shirlye (CP1), Bill, Phil & Nick (CP2), Mike, Neal & Paul (CP3), Brian, Ivan & Phil (again) (CP4), Wendy, Bob, Nick (again) & Paul (again) (CP5), with Keith & Shirlye and Neal then providing extra water stops for those still out later on; Peter was on hand, with Bill, for transport duties whilst, back at base, we had Joy, Gordon & Pauline providing the finish banquet, with waiter Mike, whilst Michael & (another) Pauline slaved over the computer and lists, trying to fathom out who was still ‘out there’, arrange pick up for the retirees and, for those that had arrived back at base, the thorny question of what distance they had actually done (quite a few changed route early on, whilst others succumbed later), and whether they merited a certificate. Keith & Shirlye kindly walked the 15 route then the rest of the 20 and 26 routes and dissected my initial draft description, whilst Bob, Michael, Mike and Neal proved that the 26 route was viable.

**Neil Higham, Organiser.**
