

# 29<sup>th</sup> Poppyline Marathon, 9<sup>th</sup> June 2013, Results

Tesco have finally got their way, the old Sheringham community center has been demolished and a nice new replacement built half way up the hill. Although it had been open for a few weeks we were the first group to use the kitchen for anything other than making a few cups of tea, the first job was unwrapping all the cutlery and washing everything. Not helped by there only being a single small sink and a domestic dishwasher that hadn't been commissioned Maybe they will have improved things by next year (if we use the same hall).

There were 109 walkers on the day, not a huge number but a lot more than we thought there'd be a week before – causing some last minute panics about whether there were enough marshals. Only 7 non-starters and no retirements – no one even caught the train from Weybourne!

Special congratulations to Harold Gray who, at the age of 86, completed his 28<sup>th</sup> (and probably last) Poppyline marathon – he missed the 2005 event due to heart surgery! - although in the last few years he has only done the short route.
