Report. Favourable comments last year about the facilities available in the club house of the George V playing fields prompted me to use the same venue again this year. Entries were down on last year due perhaps to heavy rain during the preceding 24 hours and a less than favourable forecast for the day. However the forecasters got it wrong - and not for the first time! There was no rain until well after all had finished. Instead there was plenty of sunshine. Some even complained it was too hot.

The route brought into play the climb up to Hydons Ball but as it was early in the day everybody had sufficient wind left to complete the course. Daughter No. 3, Fiona, was not available this year but fortunately daughter No.2, Julia, was able to help with the start. Pat and Dave Challenger then helped out at the finish after completing the 12 miles route. Many thanks.
