The decade started well for the Surrey LDWA with 146 going out on a splendidly invigorating Winters day. All but 5 withstood all temptations on the way to return to the hall, having completed their courses - 90 on the shorter 12 mile route and 51 on the 18 mile course. Most people took the walk leisurely, but a few aimed for faster times and the Rosens, David and Miriam, were the fastest man and woman respectively.

Everyone seemed to enjoy their stops and the devoted duo of John Westcott and Tony Youngs made a pilgrimage to an inn off the route - the Sea Horse - to pay homage to its Gales Ales. The clues were fairly easily found, except for two which had been blown down during the past week. The sign outside the Newlands Corner hotel was one and the Chilworth Mills information notice the other. This latter was in the middle of a stream and was retrieved by one of our walkers - although he was accused of vandalism for doing so! One or two difficulties were encountered coming from Shalford to St. Catherine's, primarily by those who hoped for a bridge at the old ferry crossing. Regrettably, although this bridge has finance from the Countryside Commission, Surrey County Council has been exceptionally slow in getting started on building it - expected any year now! However, there is a good alternative via the Lock cottage and lock upstream.

I would like to thank Jeff Ellingham for helping at the start and Merle Marsden, Alan Blatchford and John Westcott for checking in at the finish, after their own walks. Particularly, I thank my sons Nicholas and Alexander for working hard all day - and demonstrating good culinary abilities!

A Happy New Year and good walking throughout the 1980's.

Another Inns Kanter - January 1st 1981 - same venue but different courses. If you want more challenge walks in the meantime, ask:
