This is the fifth year running we have had really good weather. The Marshals felt pretty cold, but what a lovely day for pedestrianism.

It was a very cold start for everyone, but it wasn't too long before the sun came out. Luckily it did not create too much heat so the ground remained firm. Thankfully we didn't need the 'Flooding' diversion, but the large fallen tree on the new section presented an added challenge to some; and diminished my reputation for providing routes with well trimmed paths.

Despite the extra half mile at 29 miles, the conditions underfoot were so good that times were generally quicker than last year, with the middle order walkers up to 1 hour faster, and those at the rear finishing 2 hours earlier.

The mass Start at 7.30, with the option of a later registered start, again worked well, & a thorough check of Numbers was made at Bramley, under John Westcott's usual methodical guidance.

To the newer members who didn't bring a "Silva" type Compass with them, I would certainly recommend that they purchase one soon, as it will enhance their own route finding as well as increasing their chances of staying on route on Challenge Events.

Checkpoint 'closing times' were strictly adhered to, and most late arrivals actually seemed relieved to be switched onto a shorter route to Witley.

I spent most of the day closing down the Checkpoints, waiting for those who preferred to admire my scenic route, rather than my route description! So I was sorry not to be able to be sociable and see everyone through at least one Checkpoint. Those I did see said that the conditions were perfect and were having a good day, so I hoped that that was the general feeling.

The Entrants were full of praise for the Marshals, and I would like to add my own appreciation. I personally try to arrange a perfect LDWA 'day out'; but the Event cannot go ahead without Marshals, so I am very grateful to those who worked all day, as well as to those that chose a shorter route in order to help. (John Robinson once again excelled himself and completed the 33 miler before commencing a stint in the kitchen, and then sweeping up.)

Some local walkers (including myself) would like to see a new route, possibly similar to the route used before the 1987 storms, but I am finding it hard to find another one of the same standard of Route and Checkpoint facilities. I will succeed one day, but the 1992 Event will be identical to 1991.

BADGES: £1 and SAE

LOST PROPERTY: 1 blue flask, 1 red glove, 1 white sock & 1 white scarf.

If you have any comments, on any aspect, please complete the Questionnaire, to help me put things right / make improvements, for the 1992 Event.

I hope you all enjoyed this Event; and to those who have already written - or said so on the day - Thankyou.  
It's nice to find that your efforts are appreciated.
