N/S = Non starter

Apologies in advance for the inevitable inaccuracies with the timings. Depending when you finished, you may have had to queue to hand in your check card. Unfortunately, limited manpower resources resulted in a backlog, overloading the marshals processing the cards when finishers of both routes descended upon the car park *en masse*. At peak times some of you had to wait over 10 minutes in the cold. Our apologies (but remember how cold the poor souls at the finish and those shivering at the checkpoints must have felt!).

This year's Winter Tanners attracted an enormous number of entrants: 187 for the 20 and 269 for the 30. This compares more than favourably with previous years, and a strict 'no entries on the day' policy had to be implemented to keep the numbers to a more or less acceptable limit.

For the statistically minded:

	20 MILES	30 MILES	TOTAL
<b>Entries</b>	<b>187</b>	<b>269</b>	<b>456</b>
<b>Non starters</b>	<b>25</b>	<b>39</b>	<b>64</b>
<b>Starters</b>	<b>162</b>	<b>230</b>	<b>392</b>
<b>Retirements</b>	<b>2</b>	<b>2</b>	<b>4</b>
<b>Finishers</b>	<b>171 (with 11 from the 30 mile route)</b>	<b>228</b>	<b>388</b>

This year's routes (again devised by John Westcott) differed from any recent Tanners ones. The 30 mile route took us from Leatherhead to Bocketts Farm and on to Tanners Hatch Youth Hostel – much of this section familiar to regulars but this time in reverse. It was gratifying running down the hill to Bagden Farm rather than the uphill slog normally faced towards the end of the Tanners! Checkpoint 1 was at Abinger Roughs car park, from where we headed west via Abinger Hammer, Gomshall, into Shere and along bits of the Pilgrim's Way to Albury, ascending St. Martha's Hill and through Chantries Wood to checkpoint 2. Next we turned east, parallel to the outward leg. Much of the return leg followed the NDW, eventually leading past Polsden Lacey to retrace our steps from Bocketts Farm to the finish.

Those on the 20 mile route headed north from Shere to climb steeply uphill and pick up the NDW, now joining the 30 mile route to the finish.

This year we enjoyed wonderful winter conditions, with none of the snow, ice, and flooding experienced in recent years. The temperature at 7:30 was -4°, later reaching a tropical 5°. This had the benefit of much of the mud being frozen (at least in the early stages). However the sub-zero temperatures made life very difficult for our dedicated team of checkpointers, to whom we should all be extremely grateful.
