The weatherforcasters told us we would havewind and rain in the morning turning to cold and wind in the afternoon and thats how it turned out to be. A mainly overcast day with the sun trying to peop through in the afternoon.

The main feature of this year's route was the Hurtwood switchback which in conjunction with the mud introduced a little toughness into the event. This has not been used for some time on a Tanners route and, as far as I know, never before from east to west. There were 2 other paths never used before on Tanners. The first was the bridleway recently cleared by members of the Surrey Group which until the hacking of the thick vegitation took place had not been used by anybody for years. It was irmnical that the turn off from the drove road to gain access to the bridleway caused the most comment on the route description. Finding the green and white bridleway marker proved to be quite a treasure hunt. The second new path was the one going south west after Holmbury Youth Hostel making a pleasant charge from the usual route up to Holmbury Hill Summit.

The route was a little under 30 miles a point which I expect Peter Young (who does not approve of walks being under the stated distance) has noted and may well raise the issue at the next Surrey Group meeting. For regular Winter Tanners entrants this will make up for the many times we have exceeded the Stated 30 miles and for newcomers, I hope to see you taking part in the event in future and I've no doubt you will also fall victim to our usual policy. I must admit to fudging the distances as shown on the route description to make it up to 30 miles and one person did make the observation that the distance was further from Tanners to the finish than it was last year even though the route was identical.

There wer 317 entrants, 278 starters and 257 finishers. A record on all counts.

My thanks to the marshels for withstanding the winter elements to look after the welfare of the welkers. Many walkers declared the service they received to be first class. In fact all walkers who spoke to me said they had enjoyed the event in spite of the mud (or was it because of it!!)
