# REPORT AND RESULTS OF THE FIFTEENTH WINTER TANNERS

12th January 1992

Organiser: John Westcott Certificate Artwork: Tony Youngs

Printing: Ralph Henley

Soup Maker: Olive Bernsley

At Leatherhead (start): Dave Green and Ken Styan.

At Pewley Down: Roy Barnsley, Ray Jolly, Olive Logan, Margaret Steer and Ken Styan.

ALBERTA THE CARROL

At Tanners Hatch Youth Hostel: Graham Peddie and YHA members.

At Leatherhead (finish): Dave Green.

Entriés: 242 Starters: 216 Finishers: 191 

The freezing fog which was the predominant weather feature for 12th January made road conditions difficult but this did not seem to deter many from making the trip to Leatherhead. Of the 172 pre day entries, 145 turned up and with 70 entries on the day there were 216 who set off to run, jog or walk the 30 mile route of The Winter Tanners.

After the complete change for the 1991 route we went back to more familiar paths for the 1992 Winter Tanners. However there were one or two paths which had never been used before and whereas the 1991 route went further east than any previous Winter Tanners the 1992 route went further west. Those who used to take part the Guildford Boundary Walk will I've no doubt have recognised the small section from that route walked on this Winter Tanners even though it was in the reverse direction.

Unfortunately the fog persisted all day. We did get a glimpse of the sun on 2 or 3 occasions giving rise to speculation that it would burn the fog off but the weak winter sunshine proved to be no match for the thick clammy fog. All day I kept seeing shadowy silhouetted figures walking the route. This meant that the views could not be seen. In particular it was to be the first time ever that Guildford Cathedral could be seen from a Winter Tanners route but I'm afraid there was no chance of it being seen on the day. Also the instruction in the route description to aim to the right of Albury church had little meaning in those conditions. There was however one place which looked the better for the conditions. That was on the metalled rise from Honeysuckle Bottom to Gravelhill Gate where the pine trees shrouded in the fog and the frost on the hillside gave the impression of an alpine scene. In spite of not being able to see very far, many people commented favourably on the choice of route but obviously it would have been much better if the grand views, which I can assure you were there, could have been seen.

Because the sun was not able to get through meant that the frost took a long time to thaw resulting in the atmosphere staying very cold. This meant the soup at the Pewley Down checkpoint was very popular to the extent that it ran out with about 25 people still to come through. I should explain that because of the difficulty of heating water in the open when it is likely to be very cold, the soup is cooked indoors and then transported to the sight in thermos containers. Last year we had to throw about half of it away but this year we made up about the same quantity with slightly fewer pre day entrants and we did not have enough. As it so happens the

number of starters was slightly up on 1991 due to a larger on the day entry. Fortunately the back up vehicle for those taking part from Hendon Police Cadet School came to the rescue by providing hot chocolate to enable the checkpoint officials to give a warming drink to those who arrived when there was no soup left. My grateful thanks to the Cadet School back up team for helping us out and my appologies to those taking part who fell victim to the soup shortage.

I do not know whether the checkpoint officials put anything in the drinks they were dispensing but was just after the checkpoint that many people had difficulty in understanding the next instruction of the route description. You were told to go 600 yards then turn left through scrub. I must admit that when I wrote the description I did look for another feature to describe where the turn off was but could not find one which would not be open to misinterpretation. Even those red doggy "poop-scoop" containers were not definite in that it could have been controversial as to which one was the first you passed when leaving the checkpoint which in turn would have created difficulty in deciding which was the fourth. In the end I decided that Winter Tanners walkers would be able to judge 600 yards and at that distance it could be no other turnoff. Also the earth bank mentioned just afterwards would be sufficient to confirm they were on the right However this is intended to be a proving event for the Tanners Marathon in July so I will try to strengthen the description at that point for that event. In this repect I would like to hear from anybody who had difficulty on any other part of the route.

In spite of it remaining very cold the frost did ease out of the ground in the afternoon to produce some very slippery mud causing one or two to slip up. John Gray had a particularly nasty fall by falling into a tree and cutting his head and chin badly. Fortunately one of his companions had a first aid kit handy and plastered his wounds.

Even the resourseful Graham Peddie decided it was too cold to heat kettles out in the open so while the squash was being served in the usual place at Alan Blatchford's memorial seat the tea was served in the Youth Hostel. Once again the drinks at Tanners Hatch were much appreciated.

Dave Green started booking in the finishers at 13.27. The fastest round the route was Chris Boakes in 4 hours 37 minutes and in all 191 completed the route in times ranging to 11 hour 45 minute.

Many participants have asked me to thank my helpers for their contribution to making their day enjoyable and I too would like to add my personal thanks for their help with the registration and dispensing of drinks to make the event go smoothly. Although I state in the entry form details that there are only 2 points at which drinks are available I normally set up 2 checkpoints with drinks plus Tanners. This year I only had just the one checkpoint plus Tanners because I did not have very many offers to help with the event. I have deliberately kept The Winter Tanners as a small informal event and as such do not need many helpers but every year I still have to approach the usual friends and relations to get enough. I would therefore like a few more volunteers next year so if you know of anybody who would be willing to help please let me know.

I hope you enjoyed your day out in contral Surrey.

If made responds all residences of the John Westcott (In early to receive and minister the amount of the Corganiser) and the amount of the Internal administration and the Internal administration of the Internal admini
