

Checkpoint

Recycling and rubbish collection

Our aim is to recycle as much as possible and to this end we have provided each checkpoint and headquarters with specific labelled bags. Please note that recycling in Dorset may not be the same as your own home area.

Yellow bin bags

Please use these for:

- Paper, including cardboard & paper towels
- Plastics, such as milk containers, coke and squash bottles, spread containers, yogurt pots, plastic fruit punnets and trays
- Tins (please rinse. For large cans, remove bottom and flatten if possible)
- Drink cans

There is no need to separate the different items: all in together.

Blue bin bags

Please use for all food waste & tie neck

Orange battery bags

For all batteries from head torches etc

Small cardboard box

All glass jars, including their metal lids (but not broken glass, which should be wrapped and placed in general rubbish)

Black bin bags

For all other rubbish, including laminated route descriptions, first aid waste, plastic wrappings such as cling film, foil & wrappings from biscuits and sweets etc., used cleaning cloths.

Please note that we must not leave rubbish or recycling at village halls.

Your rubbish will be collected at or after the closure of your checkpoint. If the rubbish/recycling van has not arrived by the time you depart, please leave your bags, securely tied, at the end of the hall, at the bottom of the access ramp.

Thank you for doing what you can to help us with this task.
